Professional Summary

Hardworking and adaptable professional with experience in business development, SQL development support, and technical support. Skilled in cold calling, client communication, WordPress, MS Office, web development, Linux systems, and software support for HRIS/HRM platforms.

Work Experience

Software Technical Support (Linuro Systems & HRIS/HRM Software)
2026 – Present

- Provide end-to-end technical support for HRIS/HRM software users, including issue troubleshooting and resolution.
- Support Linux system-related tasks, ensuring stable operation for software services and user needs.
- Coordinate with internal teams to track incidents, document fixes, and improve response turnaround.

Eyecon Consultant
SQL Developer Intern → SQL Developer
2024 – 2026

- Assisted with SQL development tasks, including query writing, data support, and basic reporting needs.
- Supported ongoing database-related requests and collaborated with team members to deliver timely updates.
- Transitioned from internship to permanent role based on performance and reliability.

Business Development Executive | Harvest Group
Feb 2023 – Sep 2023

- Conducted cold calls to PMEX brokers to generate leads and build a qualified client pipeline.
- Supported trading-related coordination with clients by sharing updates and assisting with follow-ups.
- Maintained clear communication logs to ensure organized outreach and consistent client handling.
